

# Wikipedia - Goals

- Making it happen
- Quick and rewarding results
- Exercise in flexibility
- “Looking” for work

# Wikipedia - Tips

- Domain knowledge can be a (mild) curse
- Use similar pages as templates
- Perfection can be a trap
- Don't get bogged down

# Wikipedia – Easy Lists

- Articles **Needing Sections** - Layout needed
- **Short pages** and **Dead End** pages
  - Something simple is better than nothing
  - Usually only a single word or line. Improvement is usually easy
  - some dead ends just need good redirect pages
- Link Fixing (**disambiguation** / **links needed** / **lonely pages**)
  - Create direct links to be more specific
  - Linking to more internal pages
  - Orphans, can you find them a good home?

# Wikipedia - Others

- **Geographic fixes** – mostly easy lookup
- **Local Knowledge** – search nearby
- WikiMedia is also an option for the graphically inclined
  - **Photo challenge** is a great inspiration

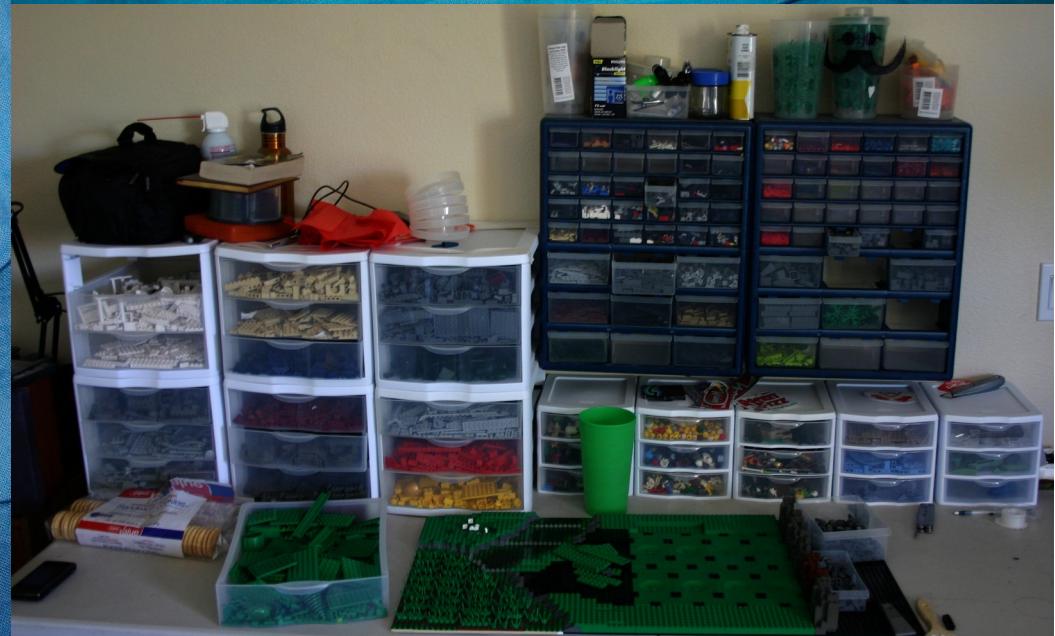

# Wikipedia – A little more advanced

- **Longest Pages** (Streamlining / Editing)
  - Refinement & simplification improve the situation (No content required)
- Wanted **Categories / Files** - Often further categorization or adding missing bits needed
  - Categories partially assembled
  - Aerospace engineering has Missing Files
- **Unconnected Pages** - mostly poorly written or in first person
- **Empty Sections** and **List Sections** - Content Needed or Paraphrasing (some domain knowledge may be required)
